Courtney Lawrence has been with Schwebel, Goetz & Sieben since 2005, starting as a law clerk before graduating cum laude from William Mitchell College of Law in 2008. She is eager to help resolve the injustices faced by her clients and will work diligently to prepare each case, paying particular attention to how the accident has changed lives, sometimes tragically. And while she realizes that she can't do the impossible-restore her client's health-she does know she can help alleviate their pain and suffering by helping them get necessary compensation. "I love people, and I hope to add a personable experience to an unfortunate legal situation," she says.
